GROUNDHOG DAY

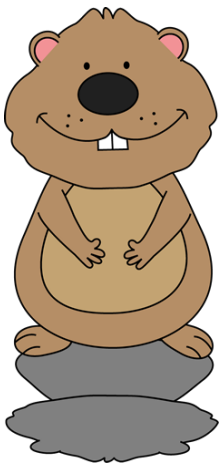

What is Groundhog Day?

Groundhog Day, is a popular tradition in the United States. On this day the groundhog, comes out of his hole after hibernation and looks for his shadow. If he sees the shadow he is scared by it and goes back into his home for 6 more weeks of winter. If he doesn't she is shadow he stays out of his home because spring is coming.

In America there is one groundhog, which predicts the weather on this day. His name is Phil. He lives in Punxsutawney, Pennsylvania. There is a group of men, who take care of Phil, called the Inner Circle. Phil can only speak Groundhogese to tell us our prediction. The President of the Inner Circle can understand Groundhogese. He talks to Phil and tells the rest of the people what Phil predicted.

Phil is a very old groundhog. He is over 100 years old. He is so old because every Summer he drinks a magic juice which gives him 7 more years of life.
